EDUCATION

Dr. B. R. Ambedkar National Institute of Technology <i>BTech in Computer Science and Engineering – CGPA: 8.07</i>	Jalandhar, Punjab 2025 – 2029
Swami Sant Dass Public School <i>Class XII (CBSE) – Percentage: 91.6%</i>	Jalandhar, Punjab 2025
Swami Sant Dass Public School <i>Class X (CBSE) – Percentage: 97.8%</i>	Jalandhar, Punjab 2023

EXPERIENCE & LEADERSHIP

ICPC Amritapuri Regionals 2026 <i>Campus Ambassador</i>	NIT Jalandhar <i>Jul. 2026 – Present</i>
- Representing the prestigious ICPC Amritapuri Regionals to promote competitive coding on campus. - Organizing programming workshops, assisting students in teammate matching, and coordinating departmental outreach.	
Prodigy InfoTech <i>Web Development Intern</i>	Remote <i>Jun. 2026 – Present</i>
- Selected for the Web Development Internship Program to design and build responsive, accessible web solutions. - Collaborating on client-side and server-side components, optimizing rendering speeds, and scaling layouts.	

TECHNICAL SKILLS

Languages: C, Java, Python, SQL (MySQL), HTML5, CSS3, JavaScript
Developer Tools & Environment: Git, GitHub, VS Code, Linux/Bash
Soft Skills: Collaborative Teamwork, Technical Communication, Analytical Problem Solving

PROJECTS

Business Guardian AI <i>Python, Google ADK, MCP, FastAPI, React, SQLite, Render</i>	
- Architected a multi-agent decision support platform using Google ADK to coordinate 8 specialized AI agents. - Integrated MCP servers for secure, real-time data ingestion from Google Workspace (Sheets/Calendar), supplier databases, and news feeds. - Implemented Human-in-the-Loop (HITL) approval gates and validation guardrails to audit AI recommendations. - Engineered secure authentication by decoupling client-side API tokens from Google Gemini billing credentials.	
Employee Information System <i>Python, MySQL, SQL</i>	
- Developed a relational database-backed desktop application in Python to automate CRUD operations for organizational data. - Structured normalization-compliant MySQL tables with primary/foreign key relationships to guarantee transactional integrity. - Designed modular query interfaces reducing database access latency via MySQL Connector.	
Student Record Manager <i>Python, File I/O</i>	
- Built a lightweight, secure record-keeping software in Python utilizing flat-file data persistence. - Implemented search, modification, and deletion algorithms on local text structures with input validation. - Designed safe exception handling routines to prevent file corruption and memory leaks during high-volume entries.	

ACHIEVEMENTS

HackVega 2.0: Successfully cleared competitive assessment of Round 1, shortlisting for Round 2 coding challenges (June 2026).
ICPC 2026: Selected as Campus Ambassador from a highly competitive student leadership applicant pool.
